

Voice of the Voiceless

No to Gandhi and Azania

Waamo Intellectual Council was designed to safeguard and be the voice of the voiceless in Waamo region. Today Waamo Intellectual council is revealing condemnation II to those who assembled Azania state. Waamo Intellectual Council condemns whoever attempts to divide, invade and destroy the dignity of Waamo indigenous!

In this case Mr. Gandhi who is a self-appointed person is trying to snip something that does not belong to him. He organized a conference by the help of Kenyan officials whom he has a clan relationship. These officials gathered innocent people from different parts of Kenya. Although they didn't realize that most of the waamo descendants are now refugees living in Kenya. So this action reveals Gandhi's political mongering and desperateness for power. He used by any means in order to full field his ambiguous agenda.

Waamo intellectual council has come to realize Gandhis' ultimate Agenda which is to rule Waamo people without getting a consent, consideration and consultation from the very intellectuals of this region. Nevertheless he uses tactics to manipulate innocent people such as oppression and intimidation so as to make up. According to individuals associated with Waamo intellectual council who are currently in Nairobi says that they cannot even criticize or say any word to oppose what is going on, let alone discussing the agenda behind Azania state.

In addition to that Gandhi deliberately refused to listen to their point views so that no one could discuss the issue. Moreover people were terrorized and intimidated by using Kenyan

officials. Hence looking all these allegations, one could argue that such authoritarian mine set should not invade Waamo inhabitant. Finally our condemnations are based on fact finding and reality on the ground. Thus Waamo indigenous from both in the country and diaspora are saying no to Gandhi's self-arrogance.
